

The tall combustion chamber of the FH is designed to let the fire unconfined, so you benefit from the entire height of its dramatic flame effects. Inspired design gives the FH a sophisticated look.

The FH is available with either a painted graphite or nickel-plated outer door.

MODEL	FH34
AxBxC (mm)	1063x574x395
D (mm)	932
G Ø ext. - Ø int. (mm)	125/110
Weight (kg)	80
Max. heat output (kW)	9
Heating Capacity (m ³)*	115
Efficiency (%)	85
Certification	HR+ / EN613

* Approximate heating capacity, based on average insulation
All models can be vented from either top or rear of the stove

FH34 - Graphite

The FH model is equipped with a hefty cast-iron inner door and a steel outer door.
